

Seat Belt with 2-point ELR

Holmbergs Industrial Vehicle Seat Belt with 2-point ELR (Emergency Locking Retractor)* and matching buckle, designed specifically for use on material handling industrial vehicles rolling on hard surfaces. It allows for safe occupant securement while providing comfort and adequate freedom of movement. Industrial Vehicle Seat Belt has a package size that allows for easy placement in the cab along with a selection of buckle and retractor mounting brackets.

Customize Holmbergs Industrial Vehicle Seat Belt systems just to your needs and minimize risks of injury or death at workplaces for operators of industrial vehicles.
